SUMMARY

Dynamic and results-driven software engineer with a strong focus on frontend development and a solid foundation in backend and mobile app development. Currently a fourth-year Software Engineering student at Addis Ababa University. Proficient in JavaScript, TypeScript, HTML, CSS, SQL, and experienced with relational and non-relational databases like PostgreSQL, MySQL, and MongoDB. Skilled in frontend and backend technologies like React.js, Node.js and Express. I approach challenges with a solution-oriented mindset, with a solid understanding of data structures and algorithms. Continuously enhancing technical expertise to stay ahead in the rapidly evolving tech landscape. A collaborative and detail-oriented team player, dedicated to delivering high-quality solutions.
